Siltronic Dredged Sediment Waste Designation Memo Comments (17-June-2011).docx

Lcfnl-Siltronic-Landfill_Worker-Exposure-29Aug11.pdf

Good afternoon Tom.

DEQ reviewed the "Recommended RBCs for Certain CVOCs for Characterizing Dredged Sediment from Gasco Sediments Site Pursuant to Statement of Work" memorandum dated January 13, 2011 (Memorandum). DEQ's letter on the Memorandum is attached along with EPA's comments on the same.

A signed hard-copy of the letter and attachment will be sent to you via regular mail early this week.

Based on our review of the Memorandum, DEQ does not approve the recommendation to use excavation worker risk-based criteria to determine whether sediment contaminated only by cVOCs contains a listed hazardous waste. For the reasons discussed in DEQ's letter, occupational RBCs should be used instead.

Please call me with questions regarding this e-mail and the attachments.

Mr. Dana Bayuk, Project Manager
Cleanup & Portland Harbor Section
Oregon Department of Environmental Quality
